

★ PRECISION GEARS

Gears and pinions made to very fine limits to give positive drive from the landroll to cutters. Oil-tight die-cast alloy casing for long life.

★ ALTERNATIVE FRONT ROLL

The Ajax is now provided with a four-piece front roll. By removing the centre portions longer lawn grass can be cut.

AFTER SALES SERVICE

When you become the owner of a Ransomes mower, you can be sure that your machine will rarely need attention. If it should, you have at your service Ransomes specially appointed service stations. They cover the country to offer you:

- A high standard of service.
 - Repairs by men trained by Ransomes engineers.
 - A full stock of spares.
 - Your mower sent back in first-class order.
- Whenever you mow you're never far from Ransomes Service.*

12" AJAX

You will be proud to own a smart, streamlined Ajax and even more proud of the velvety two-toned finish that it will leave on your lawn.

The combination of close, fine cutting, right to the edge of the lawn and firm rolling from the large fluted roller will appeal to all garden lovers who take pride in a well kept lawn.

Study these features which make the quiet, smooth-running Ajax a machine which every member of the family will find a pleasure to use.

**THE RANSOMES AJAX HAS BEEN YOUR
'BEST BUY' FOR YEARS**

- ★ Six-knife all-welded cutting cylinder running in self-aligning ball bearings. Knives of NEW super-strength impact resistant Sheffield steel running at high speed for a fine cut.
- ★ Precision-ground, lipped Sheffield steel bottom blade specially strengthened to resist impact with stones or twigs. The lipped cutting edge is hardened for keen cutting and long wear.
- ★ Precision cut **gear drive** totally enclosed to give the smoothest possible drive.
- ★ Two-piece landroll with differential for easy turning without turf damage. Allows cutting over the edge of the lawn.
- ★ Strong tubular steel handles adjustable for height and width, fitted with comfortable moulded handgrips.
- ★ A four-piece front roll is now fitted, the centre portions of which can be removed to allow longer lawn grass to be cut.

Spare parts will be available for at least 15 years from date of sale of machine.
