ATCO

28 inch & 34 inch MOTOR MOWERS

These well tried Atcos embody a straight forward design which combines ruggedness with excellent balance and manoeuvrability so reducing operator fatigue to a minimum as well as facilitating general manhandling of equipment when necessary, on and off vehicles for example.

Specificationally they conform to the exacting requirements that the hard and varied work demands of them in the high hourage user field. Operationally they are reliable and simple to use with or without the optional trailer seat and furthermore, the straightforward design makes possible an unusually attractive price that will offer real appeal to the practical man.

Nothing will convince you more about the merits of these machines than by a personal demonstration on your own turf. On the mainland of Great Britain one can be arranged without any obligation to purchase, at a time to suit your convenience by request to your Atco Dealer or nearest Atco Branch. In overseas territories please apply to your Atco Distributor.

SPECIFICATIONS

Engine: Mk.25 4-stroke. Cooled by fan and cowl.

Carburettor: Single lever control. Fitted with air strangler for assisting engine starting from cold, and large and efficient air cleaner.

Clutch: A light clutch lever operates the metal to metal cone clutch, giving smooth engagement and positive control of the machine.

Transmission: By highest quality roller chains through steel chainwheels.

Rear Roller: Three sections, cast light alloy; full self-lubricating differential for easy turning.

Cutter Unit: 6 heavy duty blades of specialised Atco quality and construction, giving 81 clean cuts per yard.

Cutter Release: Fitted on the end of the engine shaft.

Front Rollers: Sections are aluminium die-casting. Fitted with perforated floating bushes, grease-packed, with special protective caps fitted at each end of shaft to prevent ingress of dirt and moisture.

Ball Bearings: Shafts run on ball bearings of generous dimensions and dust-and-dirt-excluding housing.

Controls: Limited to two only—clutch and carburettor; both come easily to hand on the guiding handles.

Lubrication: Direct and positive access to points requiring periodic oiling.

Starter: Foot Starter. Simple and positive in action.

Grassbox: Tipping grassbox. Strong, light with capacity as the keynote.

Weight: 28" (71 c.m.) model, 310 lb; 34" (86 c.m.) model, 333 lb.

Tank Capacity: 4½ pints petrol.

Fuel Consumption: 28" (71 c.m.) model, approximately 1½ hours per pint; 34" (86 c.m.) model, approximately 2 pints per hour.

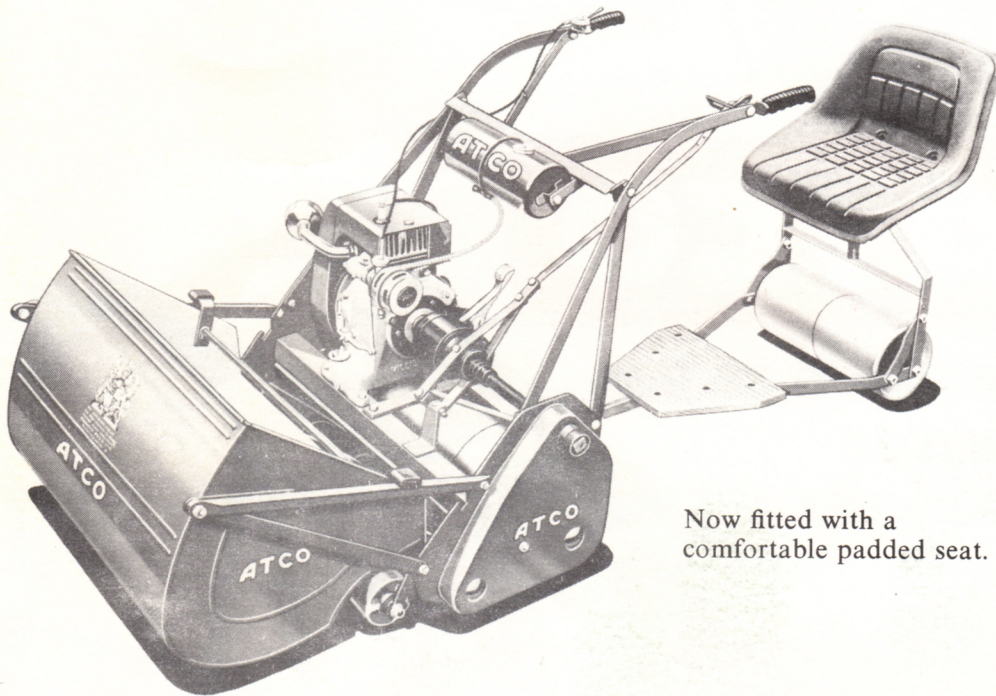

Area mown per hour: 28" (71 c.m.) model, up to 4,000 square yards; 34" (86 c.m.) model up to 5,000 square yards.
